Re: ***Student Learning Expectations***
Date: October 2, 2008

St. Patrick School is in further need of your assistance. As mentioned in the WCEA/WASC Process for School Improvement, the Report of the Visiting Committee stated as one of its recommendations:

*“Student Learning Expectation must be addressed soon,
and should be a collaborative effort of all stakeholders.”*

During the months of August and September, the administration and faculty have visited, re-visited, and addressed the implementation and assessment of *School-wide Learning Expectations (SLE's)* that were written in 2006. At this time, we feel a revised action plan is needed to address this area of growth.

Attached is a **DRAFT** of what the administration and faculty have formulated to date. We will be putting the DRAFT on our webpage so all St. Patrick School Parents & Guardians may give input.

I am asking each of you for your input on the following *Student Learning Expectations*. You may drop off your input at the school office, mail it to the school or email me: jrieschick@saintpatricks.net.

Thanks in advance for all you do for St. Patrick School and your involvement with the Parent-Booster Club!
